Re: Docket No. 10-213

I am opposing the comments made by National Cable & Telecommunications Association and related parties requesting the waiver or water-down kind on the CVAA.

The CVAA is the most versatile law to meet the needs of us, the people with challenging abilities. Please do not comply any request that will reduce our rights of being free to enjoy like all people with hearing abilities.

Our forefathers and we have suffered enough for the lack of our freedom for many years to enjoy our lives. We were not asked to be people with disabilities. Tell those manufacturers too bad and get their butts to comply the CVAA! They can do it!

Sincerely,

Louis J. Schwarz
